

200A, 15 / 25 kV Class Deadbreak Bushing Insert

APPLICATION

The Chardon Deadbreak Bushing Insert threads into a standard 200A bushing well. It is a fully shielded, fully submersible separable connector designed for deadbreak operation. The Chardon Deadbreak Bushing Insert is suitable for 15/25 kV class systems and can be installed in transformers, switchgear or other apparatus when needed to connect with deadbreak connectors.

The Chardon Deadbreak Bushing Insert incorporates an all copper current path. This provides reliable and consistent performance under all conditions. The design meets all the requirements of IEEE standard 386, and is fully interchangeable with competitor's products and all mating products that also meet IEEE Standard 386.
